

Avila Genealogy - Paternal Line

The naming convention is First Name(s), Paternal Surname(s), Maternal Surname(s). A person's surname order or name spelling may differ in various vital records; in such case the author made a determination on how to record the individual. This document uses the Ahnentafel genealogy numbering system, in which the subject person is number 1, and then all even-numbered persons are male and all odd-numbered persons are female. This follows the paternal Avila line and each preceding father and mother. "UNK" denotes an unknown date and/or location, while the following states of Mexico are abbreviated: "JAL" is Jalisco, "AGU" is Aguascalientes, "SLP" is San Luis Potosí, and "ZAC" is Zacatecas.
